

VOTE FOR JAGINDER SINGH

FOUNDER, DIRECTOR & ENTREPRENEUR

CHANGE

I offer **practical common-sense plans for real change**. I am dedicated to shaking up the system and delivering visible and sustainable results for all communities without any discrimination. I will tirelessly advocate for increased funding **to ensure our education, safety, economy, and environment thrive**.

OPPORTUNITY FOR ALL

Committed to equal opportunities for all, **including those experiencing homelessness**. Through initiatives like providing **affordable housing, mental health support**, we can ensure that everyone has the resources they need to thrive.

We need to **help elderly individuals who struggle with technology** by hiring dedicated staff in organizations, for example, councils and job centres, to assist them.

YOUTH PROTECTION

I advocate for a ban on social media for those under 18 to **protect them from bullying, mental health issues, and grooming**, making sure to prioritise the protection of our youth and shield them from modern day manipulation.

SAFETY

Safety should never be compromised. I will work tirelessly to allocate resources where they are needed most to keep all communities safe and secure both offline and online.

ECONOMY

Enough with the waiting. Let us inject new life into our economy with smart investments and initiatives that **create jobs and opportunities for everyone**.

I am dedicated to **sanctioning rent freezes** to address housing affordability, providing immediate relief to those struggling with rental costs.

ENVIRONMENT

Keeping our roads clean is not just about appearances. I will work to **create a culture of responsibility**, increase the number of bins on streets & make rubbish collection more frequent.

I will also work to **upgrade poorly managed roads** to create a **safer physical environment**, which has been **ignored for more than 17 years**.
